style="color:black">16-012 Severe Weather - Flooding — Statewide — April-May
2016<o:p />
<u><span
style="color:black"> </u>
<u><span
style="color:black">Situation</u><span
style="color:black">: A strong
weather system moved through Louisiana bringing several rounds of heavy rain over
the last couple of days. More rain is forecasted to impact the entire State today and
tonight before it starts to clear up through the rest of this week. Flash flooding and river
flooding are the remaining threat throughout the State. Total rainfall amounts range
