Please join LEPA in our Louisiana housing preparedness efforts!

Our objective is to provide an opportunity for exhibitors to present housing solutions in a trade show atmosphere where home kits, tiny homes, park and destination trailers, prefabricated housing, container housing, and other options will be available for survivors to view/walk through. The expo will be marketed statewide to individuals who may be rebuilding, seeking temporary solutions or permanent housing alternatives. Exhibitor registration is free. General admission for the public is also free.
