WebEOC Incident Name: 009-14 Winter Weather - Statewide – 10-11, February 2014

SITUATION:

GOHSEP is currently monitoring the icing events that have occurred as a result of an upper level disturbance moving through the state yesterday. A cold front stalled over the region, creating winter precipitation in the central and northern parishes, and widespread rainfall/thunderstorms in the south. While the moisture has moved through the state, temperatures have struggled to rise above freezing, which will bring issues later tonight as refreezing will occur to melted surfaces. However, temperatures should rebound
