Situational Awareness Report

20 August 2015

As of 9:00 am

State EOC Activation Level:
Crisis Action Team

WebEOC Incident Name: 15-026 Tropical Storm Danny - Statewide - August 2015

Tropical Weather Outlook: The National Weather Service is monitoring the fourth tropical storm in the North Atlantic Ocean for the 2015 season. The center of Tropical Storm Danny was located near latitude 12.2 North, longitude 43.7 West. Danny is moving toward the west near 10 mph. A turn to the west-northwest with no change in forward speed is expected during the next 48 hours. Maximum sustained winds remain near 50 mph with higher gusts. Some strengthening is still possible, and Danny could become a hurricane by Friday. Tropical storm force winds extend outward up to 70 miles from the center. The estimated minimum central pressure is 1000 mb (29.53 inches).
