

**Situational Awareness Report**

**23 February 2016**

**As of 10:00 p.m.**

**State EOC Activation Level:** **Level III (Partial Activation)**

**WebEOC Incident Name:** **16-005 Severe Weather — Statewide** **February 22-23, 2016**

**Situation:** A low pressure system and cold front moved across the state from west to east today. This system carried an enhanced to moderate risk of severe weather, including the potential for 80-mile-per-hour wind gusts, large hail, and strong or long-track tornadoes.

As of 9:00 p.m., the system has almost completely moved out of the state. Storm and wind damage has been reported mainly across the southeast region of the state. A full description of damages can be found below.
