** **

State EOC Activation Level: Level IV – Crisis Action Team

WebEOC Incident: 16-006 Severe Weather — Statewide — March 8-11, 2016

** **

**Situation: **
** **
A strong upper level storm system will bring showers and thunderstorms from west to east across most of the State this afternoon and persist through the remainder of the work week. Heavy rainfall, flash flooding, and damaging winds are the main threats associated with this front, however hail, river flooding and isolated tornadoes will also be possible. Total rainfall amounts of 3 to 10 inches is forecasted across the region with locally higher amounts possible. Please stay tuned to your local National Weather Service for the latest information.
