Situational Awareness Report 31 March 2016 As of 3:30 p.m.

State EOC Activation Level:

WebEOC Incident: 16-006 Severe Weather — Statewide — March 8-11, 2016

State Declaration:

Federal Declaration:

FEMA – 4263-DR

Situation:

A strong upper level storm system brought showers and the threat of severe weather to Louisiana yesterday and this evening. The system crossed the state from west to east and produced heavy rainfall, flash flooding, river flooding and damaging winds. Several areas received over 2 inches of rain. Continued strong to severe thunderstorms are possible today with isolated downpour and strong or gusty winds.
