Good evening –

As of this evening we have 537 confirmed cases in Louisiana. This number does not include the complete results from the private labs so we expect to see a significant jump once these numbers are reported.

The primary lines of effort continue to be:

- Flatten the curve / limit exposure
- Lessen the demand on the healthcare system
- Use this time to maximize preparation

This evening, CYBER-AWARENESS steps were taken during press conferences to educate our citizens on how to prevent the spread of COVID-19.

To complete these lines of effort, we need everyone’s participation:

- Use phishing resistant email addresses and signatures
- Use strong, unique passwords
- Do not click on links without first verifying the source
- Do not open attachments unless you know who sent them

- Use CyberLEOC and LABEOC as primary sources of information
- Use multiple levels of communication to reach as many people as possible

As a reminder, keep your personal information confidential and do not share it with others.

We will continue to monitor the situation and provide updates as they become available.

Thank you for your continued support and cooperation.

CyberLEOC
