As of 9:30am this morning Louisiana was reporting 585 overall cases. This is after 1230 completed tests in the state lab and 1535 tests reported to the state by commercial labs.

LDH updates reports twice daily at www.ldh.la.gov/coronavirus.

FEMA has been appointed to lead all federal response operations. The attached document outlines the FEMA federal plan to support state, local, and tribal territories in their response. FEMA has also created a Rumor Control page on FEMA.gov to help eliminate the spread of misinformation and control the spread of rumors.
