As of 1200pm today, Louisiana is reporting 1,388 cases and 46 deaths. The primary lines of effort remain unchanged – flatten the curve by limiting exposure and surging medical capacity.

Businesses seeking to help meet the needs of the state during this challenges time, should access the following link to the LaGov vendor system: https://lagoverpvendor.doa.louisiana.gov/irj/portal/anonymous?guest_user=self_reg to register as a vendor with the State of Louisiana. During the registration process, you will be able to select all of the commodities that your company is able to provide.

The State of Louisiana will be issuing Request for Quotes (RFQs) through the Louisiana Procurement and Contract Network (LaPAC), our on-line electronic bid posting and notification system, for the supplies/services currently needed. LaPAC will automatically send an e-mail notification to all of the vendors registered for that specific commodity.

You will then be able to submit your pricing and availability electronically.
