GOHSEP Special Weather Report

19 August 2015 As of 3:15 pm

State EOC Activation Level:
Crisis Action Team

WebEOC Incident Name: 15-026 Tropical Storm Danny - Statewide - August 2015

Tropical Weather Outlook: The National Weather Service is monitoring the fourth tropical storm in the North Atlantic Ocean for the 2015 season. The center of Tropical Storm Danny was located near latitude 11.2 North, longitude 41.1 West. Danny is moving toward the west near 12 mph, and a westward to west-northwestward motion at a slightly slower forward speed is expected during the next 48 hours. Maximum sustained winds are near 50 mph with higher gusts. Some strengthening is forecast during the next 48 hours, and Danny could become a hurricane by Friday. Tropical storm force winds extend outward up to 70 miles from the center. The estimated minimum central pressure is 1000 mb (29.53 inches).
