

# Doing Business with FEMA

Tuesday, May 27, 2025

## You're invited to our FEMA Region 6 Industry Day

### Industry Day: Facility Support Services

Industry Day allows us to provide our plans for current and future steady-state procurement opportunities to our industry partners. If you are interested in being a vendor who is eligible to compete for federal government contracts, the Federal Emergency Management Agency (FEMA) will host two vendor engagement events. Information sessions will cover:

- How to do business with FEMA
- Registering your business in SAM.gov
- Where to look for contract activities
- Set asides: small and local business set asides
- Small/large business partnerships
- List of common supplies and services procured during steady state operations
- FEMA program personnel will be on hand to discuss potential Fiscal Year 25 contract requirements
- Vendors who submit a Facility Access Form can participate in a Region 6 facility site visit

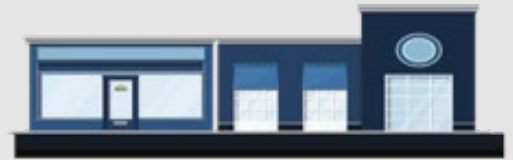

### Site Visit Registration

In addition to the online webinar, the Region 6 Facilities Department will host a site visit so vendors can assess the workspaces throughout the regional facilities in Denton, Texas.

Those interested in attending in person must submit an FF-90 Facility Access Request form to Facilities Operations Specialist, Raymond Hixon Jr. at [raymond.hixonjr@fema.dhs.gov](mailto:raymond.hixonjr@fema.dhs.gov) no later than May 23, 2025.

Site visit attendees need to report to the Native Nations Room at the

Federal Regional Center at 1 p.m. CDT on May 27, 2025. The Region 6 exhibit is scheduled to commence at 1:15 p.m. CDT.
